

INTRODUCING THE NEW TITANIUM

The Titanium boot has been tested to comply with the SANS/ISO 20345 safety footwear specifications and carries this stamp of approval.

This product is manufactured at Bagshaw Safety Footwear, a division of BBF Safety Group (Pty) Ltd, which is an ISO 9001 accredited factory.

SPECIFICATION SHEET

Style Name: Titanium
Style Code: 4003
Size: 4 - 13
Sex: Male
Colour: Black and Brown

UPPER

- The upper is cut from 1.8 – 2.0mm Buffalo Side Smooth Leather, which is strong and has high wearing durability.
- The four pairs of eyelets and two pairs of ski hooks are made from steel, which has been treated with a corrosion resistant “gunmetal” coating.
- The lace is braided and made from a polyester yarn with high abrasion resistance together with a central core for additional strength.
- The collar padding material is from open cell foam for superior comfort and support.

LINING

- The vamp lining is made from a special needed Hi-Tech Fibre blend, which has excellent perspiration absorbency. This results in a low heat build up and a more comfortable shoe for the wearer.
- The quarter lining is from industrial material with good abrasion resistance.

IN-SOCK & TOP SOCK

- The in-sock is from a specially developed antistatic, non-woven material, which has exceptional directional stability, durability and comfort.

TOE CAP

- Extra wide fitting toe cap.
- Can withstand an impact load of 200 Joules.

SOLE: Inyati (PU/Rubber)

- The rubber is heat resistant, cut and abrasion resistance and provides excellent SRC slip resistance on most surfaces.
- The cushioned midsole is made from a flexible low density Polyurethane with a shore hardness of 45 – 55.
- The outer sole is made from a hard wearing PU/ Rubber with a shore hardness of 60 - 75.
