

CREATINE SUPREME

MUSCLE, STRENGTH, ENDURANCE & RAW POWER SUPPORT

SSA Creatine Supreme operates as an energy provider within the ATP system and simultaneously increases muscle growth with its muscle volumizing capacity.

Its benefits include:

- **Massively increased energy levels.**
- **A large boost in protein synthesis efficiency.**
- **Greatly boosts the body's natural IGF-1 levels.**
- **Extreme increases in cell volumization levels.**
- **Speeding up muscle recovery.**
- **Can even decrease myostatin levels (the hormone responsible for dictating what your "genetic potential" is, and limiting it).**

With all these and more, it's no wonder that Creatine stands head and shoulders above the rest.

Active Ingredient Content

Serving Size: 1 Heaped Scoop (5g)
Servings Per Container: 100

	Per Serving	NRV
Creatine Monohydrate	5 000 mg	†
