

BREAST SUPPORT

FIRM & UPLIFTED BREAST SUPPORT

SSA Breast Support is an innovative product that has been shown to yield some really astonishing results in women.

The effective combination of Pueraria Mirifica and Fenugreek Extract combined into a single product has been formulated by SSA to enhance and support breast tissue growth.

Pueraria Mirifica has been shown to have 3000 times the estrogenic activity of soy isoflavones and 100 times that of red clover. However, it works - and this is very important to understand - by having the phytoestrogens trick the body into thinking that real estrogen is present by the process of selective estrogen receptor modulation. This then promotes the secondary female sexual characteristic of glandular tissue build up in the breast.

An additional benefit is that real estrogen coupled with its cancer promoting effect is prevented from attaching to these receptors.

Fenugreek works by increasing the breast size as a galactagogue which produces prolactin and fat storage, as well as by insulin sensitization which has been shown to lower androgen levels.

Active Ingredient Content

Serving Size: 2 Capsules
Servings Per Container: 60

	Per 2 Capsule Serving	NRV
Peuraria Manifica Root Extract	400 mg	†
Fenugreek (Seed)	100 mg	†

NRV - Nutrient Reference Values for individuals older than 4 years. † - NRV not established

Ingredients: Peuraria Magnifica Root Extract, Fenugreek.

Other Ingredients: Capsule Shell [Gelatin, Purified Water, Colourant (E171, E172, E127, E122)].

Allergen Information: Contains no common allergens, but is produced in a facility that processes Whey, Casein and Egg.
