

LIVER SUPPORT

SUPERIOR & EFFECTIVE FORMULATION

With a concentrated dose of Prunella Vulgaris and Milk Thistle, SSA Liver Support is an all-encompassing liver cleansing and protection system. A liver support product is valuable to protect against the ravages of modern-day life such as alcohol and fast food, and serious gym junkies seeking to build muscle also need to help their liver process the extra protein consumed.

Prunella Vulgaris is a traditional Chinese herb that is known to remove heat from the liver while simultaneously protecting it. In addition, it doubles as an estrogen blocker.

Milk Thistle is a world-renowned substance that has been the go-to for anyone who has sought after liver health improvements and protection from liver damage and liver cancer. It's also used to protect the liver against harmful, and even deadly, toxins that we may ingest on a day-to-day basis. Studies have shown radical improvements in liver function in people with liver diseases who have taken a milk thistle supplement, demonstrating its effectiveness at reducing liver inflammation and liver damage.
